| Title   | Financial Report – November Month End |  |  |
|---------|---------------------------------------|--|--|
| Sponsor | Michael Letters (Head of Finance)     |  |  |

#### **Executive Summary**

This paper shows the current full year financial forecast underspend against budget, along with key financial reporting for assurance.

#### **Financial Forecast**

Staff costs are currently forecast to be £**714**k underspent (6.2%). This is a £173k reduction from last month (£541k) due to a number of changes.

Recruitment and retention of staff in the Resolution Centre remains a significant challenge, and an underspend of £642k is forecast in Resolution Centre.

Recruitment to replace Service Improvement team vacancies was delayed to minimise the likely impact on Operations teams and the impact on case closures. Some appointments have now been made, but there are still vacancies for a Quality Manager and auditor resulting in a forecast £113k underspend.

The Executive team have prioritised interim resource requirements in key areas which will be funded by the underspends from a number of Executive and Corporate vacancies. The proposals total around £148k.

Non-Staff costs are also forecast to be underspent by £103k resulting in an overall forecast underspend of £815k.

#### **Financial Reporting**

The Income and Expenditure and Balance Sheets are provided for assurance.

Board should note the following:

Case Fee Debtors - The aged debt position is at a stable, and low, level.

Payment of Creditors - Average payment days are 29 days year to date, compared to 39 days last year.

There is continued focus on improving the number of supplier invoices paid on time; 64% of invoices were paid on time this quarter.

#### Recommendation/action required

Board is asked to **note** this report

# **Financial Report**

#### 1. Income Forecast

Case Fee income is forecast to be £199k under budget reflecting the vacancies and consequent performance challenges in operations.

Combined with the forecast underspend of £815k, this is leading to a forecast levy of £616k below budget. As a result the sector will receive lower invoices in February for the 2021/22 levy than anticipated.

#### 2. Staff Cost Forecast

Staff costs are forecast to be **underspent by £714k (6.2%).** This is a movement of £173k from the previous month.

There have been some a number of significant movements in the forecast this month:

- Resolution Centre forecast has reduced by £50k reflecting a number of changes;
- Additional attrition and additional sickness than forecast last month.
- The new investigation cohort is now forecast to start 5 weeks later (£57k reduction), although we are now forecasting that we will a higher number than planned based on the success we are seeing from the recruitment process (£29k addition). If the recruitment is successful we will aim to recruit additional investigators to mitigate future backlog. This is being modelled based on average attrition rates and taking into account the vacancy factory that is applied to operations.
- Attrition and recruitment challenges are affecting a number of posts with vacancy gaps or changed forecast start dates for a range of posts (Quality Manager, BI Analyst, Legal Manager, Risk Manager, Project Manager, External Affairs Manager, Executive Assistant and Executive Team vacancy). This has reduced our forecast by £91k.
- GET forecast has reduced by £18k due to a leaver in November.
- HR staff forecast has decreased by £14k to reflect delays in start dates of some temporary resources.

### 3. Non-Staff Costs

Non-Staff costs are forecast to be underspent by £101k

The IT forecast has reduced to a £62k forecast underspend. This reflects reduced monthly licences from attrition / late recruitment, and lower expenditure on CMS enhancements. There are also reduced third party support on Finance and HR systems as we understand the new and updated systems better.

There is also a £51k underspend as a result of a historic rent adjustment.

#### Overall Forecast Underspend £815k (5.6%)

| Reserves                         | (17,737)             |

### d. Trade Creditors – Days to Pay

The challenges of remote working had a significant impact on the timeliness of paying purchase invoices in 2020-21. There is a commitment to reducing the average payment days and ensuring that the internal processes around authorising of invoices are followed in a timely manner.

This has significantly improved in 2021-22, and the finance team continue to review the process to drive this improvement. Of the 36% of invoices which were paid late, 10% of these were within 4 days of their due date, and we are reviewing the frequency and timeliness of the payment runs to mitigate this in future.

| days to pay                | 2020/21 | Q1  | Q2  | Q3 to Nov |
|----------------------------|---------|-----|-----|-----------|
| average payment days       | 39      | 29  | 28  | 30        |
| % of invoices paid on time | 34%     | 46% | 65% | 64%       |
